

SFEC

Saudi Friends Engineering & Construction Co., Ltd.

PROFILE

INTRODUCTION

THE MOST TRUSTED PARTNER

Saudi Friends Engineering & Construction Company Ltd.(SFEC) is dedicated to providing high-quality Engineering, Procurement and Construction (EPC) services for the industrial industry.

Mr. Dirham Mujahid
President

ABOUT SFEC

Saudi Friends Engineering and Construction Co. Ltd. provides high quality Engineering, Procurement and Construction services to a broad range of commercial and industrial clients throughout the Kingdom of Saudi Arabia. Anchored by loyal employees who are dedicated to providing superior service, and grounded in the philosophy that honesty and integrity are as important as the bottom line, SFEC has enjoyed an impeccable reputation for over the years. We have never failed to complete a project and have never had a bond claim. Schedules and budgets are meant to be kept, and we strive every day to do so.

SFEC's success over the past years is due to its employees' dedication to excellent work, customer service that exceeds expectations, and a safety program that has led to millions of zero-accident hours. Honesty and open communication have empowered SFEC's workforce since day one, and it shows in our work.

SFEC has the ability to self perform many aspects of a construction project, and the financial strength of the entire organization ensures each client of our ability to always perform – from groundbreaking to ribbon cutting, and just as important, through the warranty period.

In the end, our success in this business is measured one project at a time. After the completion of each project we undertake, there must remain a satisfied client – one who will ask us back for the next project and recommend us to others.

Experience a new dimension art of style with SFEC!

VISION

To be a world-class construction company committed to total customer satisfaction and enhancing clients' value, by building on our strengths - innovative designs, superlative quality of material, cutting-edge technology, timely completion and demonstrating the highest standards of workmanship and ethical practices.

MISSION

- To be a leading construction company in the global market
- To become the customers' most preferred choice by attaining excellence in quality and timely completed value added projects.
- To create customers founded on mutual respect, professionalism, integrity, dedication and sincerity exceeding clients' goals and expectations.
- To execute and deliver projects economically with uncompromising quality and safety standards to its clients.
- To create a culture that excites its workforce in pursuit of excellence through innovation, differentiation and continued learning.
- To contribute to the safety to improve the quality of life.
- To identify and mitigate all the environmental impacts arising from our activities and comply with applicable environmental norms.
- To contribute to the development of the local community and society at large as a part of our corporate social responsibility.

SFEC MAJOR LINE OF SERVICES

INDUSTRIAL CIVIL WORKS

- SFEC carved a niche in the competitive market by rendering to valued clients a highly specialized services and providing a high quality of work, with excellent safety record and meeting the required completion schedule. All services are precisely and professionally executed utilizing the suitable resources and applying latest technologies. Moreover, to meet the diverse requirements of the clients, we frame and develop the solutions based on the demands and budgetary constraints of the clients. Our service spectrum comprises general civil and building works, HVAC & Firefighting, misc structural steel work, waterproofing, painting/coating works, temporary facility and site development works & other industrial construction services.

- SFEC are one of the fast growing organizations, engaged in rendering admirable Industrial Civil & Building Work. These are executed by expert professionals, who have vast years of experience and in-depth knowledge in this field.
- Serving the petrochemical, oil and gas, power, refining, desalination, manufacturing, transportation and commercial construction industries, SFEC goal to provide on-time, high-quality work, with a commitment to award-winning safety and regulatory compliance. Has successfully completed projects with some of the largest companies, as well as numerous independents, with carefully defined budget, safety, quality and performance targets.

SFEC MAJOR LINE OF SERVICES

INDUSTRIAL BUILDING WORKS

SFEC is among the most trusted firms, engaged in rendering acknowledgeable Industrial Building Construction Work. In this, our expert and highly experienced professionals work in close proximity with clients to render the undertaken project as per their demands and requirements.

ERECTION WORKS & PEB

SFEC is involved in the fabrication and erection of misc. structural steel works and supply/ installation of PEB buildings to meet the demand of various industrial sectors in KSA. With an average of more than 5 years of experience, steel fabricator, welders, steel erector and rigging teams have the talent, drive, and discipline to meet the toughest structural installation requirement of the construction field. Our dedicated teams are certified by the competent third party agencies.

SFEC MAJOR LINE OF SERVICES

HVAC, ELECTRICAL & FIRE FIGHTING

HVAC is technology of indoor and vehicular environmental comfort. Its goal is to provide thermal comfort and acceptable indoor air quality. SFEC's one of the major goal being specialized in heating and air conditioning service and installation is to provide excellent HVAC system to the maximum comfort of the client. We have been the industry leader in HVAC and Firefighting work for over the many years and is the most widely known and recognized by the reputed clients in the construction industries.

SFEC Scope includes Supply, Installation, Testing & Commissioning of HVAC Equipments and DDC Panels. Supply, Installation & HVAC Ducts & Accessories.

ELECTRICAL & INSTRUMENTATION WORKS

SFEC has separate Electrical & Instrumentation team dedicated to execute all Industrial Electrical & Instrumentation works. Our Scope includes Substation works such as Panel & Transformer Installation ,Cable Tray & Conduit Installation, Cable pulling & Termination, Lighting , Fire Alarm Systems, Grounding & Lightning Protection systems .

Instrumentation Scope Includes Installation of DCS Panels, Cable trays, Conduits, Instrument Junction Boxes, Stanchions, and Instrument tubing .SFEC has Calibration lab and Instrument Technicians to do all bench & field calibration of Instruments .

SFEC MAJOR LINE OF SERVICES

FIRE PROOFING OF STEEL STRUCTURE

SFEC offers the most complete fireproofing package of unparalleled performance in rendering fireproofing services for steel structure, vessel skirt, saddles, etc. in the refinery and petrochemical industries.

We have been the industry leader in fireproofing for over the many years and is most widely known and recognized by reputable companies in construction industry today. We offer the top level of fire proofing services to the maximum satisfaction of the client at the most competitive price.

PROJECT SUPPORT SERVICES

For meeting the ever-growing demands and requirements of our valued clients, SFEC undertake the various Industrial Civil Support Services. In this, we undertake all the work related to civil construction, starting from site preparation, installing temporary site and camp facilities, supply of required skilled and unskilled workers including staffs and management personnel, and supply of equipments/transport utilities, etc. Our expert professionals and company management work round the clock to serve clients in an efficient manner to that where SFEC win trust and confidence.

Quality Policy

It is the policy of Saudi Friends Engineering & Construction Co. Ltd. to provide services related to "Project Management related to Engineering and Construction, (CIVIL, HVAC, Electrical and Instrumentation Contracting)". Saudi Friends Engineering & Construction Co. Ltd. is committed to comply with the requirement of the customers and to continually improve the effectiveness of the Quality Management System. It must be clearly understood that this Quality Policy, Quality Manual and associated Procedures and systems are mandatory on all staff.

As part of our strategic direction, stated in our Vision and Mission, we are committed to;

- Provide services that meet Customer's full requirements.
- Meeting all relevant statutory and regulatory requirements.
- Continually improving the effectiveness of our adopted Quality Management System in accordance with ISO 9001:2015.
- Review our objectives and achievements periodically for continual performance improvement of processes.
- Plan and evaluate our processes via consideration of the associated business Risk.
- Ensure that this Quality Policy is communicated to all concerned Departments and understood by everyone within Saudi Friends Engineering & Construction Co. Ltd.
- Periodically review our Quality Policy to maintain relevance with International Standards.
- Maintain the flexibility to integrate other related management system requirements.
- Maintain the prestigious position as one of the best Company in the Kingdom of Saudi Arabia.

HSE Policy

Saudi Friends Engineering & Construction Co. Ltd. is committed to strive for "Project Management related to Engineering and Construction, (Civil, Building, HVAC, Electrical and Instrumentation Contracting)" or if possible exceeding, the current (and if applicable any in the future foreseen) standards, demands and expectations of customers and government regarding Health, Safety and Environmental aspects.

Undertaking our activities goes along with high responsibility, competency and professionalism, so in order to realize our commitment and maintain our leadership position in this business we've established a structure that includes all the organization's activities and describes the processes including the aspects of Health, Safety and Environment.

Our policy is established on the following items:

- ❖ We operate our workplaces to comply with Health, Safety and Environment applicable local and global regulations, and with the policies of our group using best practice as a guideline.
- ❖ We'll ensure that the risk associated with our activities and services to employees and other interested parties, surroundings and the information and goods entrusted to us are known and controlled in a responsible manner.
- ❖ We'll maintain the best possible Environmental, Health & Safety performance, and in order to achieve this Standard, prevent occupational injuries, illnesses and pollution.
- ❖ We'll establish, implement and maintain a framework to measure our HSE objectives and targets and to ensure the continual improvement of our HSE program and Documented Management System.
- ❖ We will review our policy periodically to ensure its adequacy and suitability and we'll communicate this policy to all employees and interested parties.
- ❖ We believe that our employees are our greatest asset and its part of our policy to ensure that everyone is aware of his vital role for the continual development of their welfare within our company by participating in our periodic scheduled training programs.
- ❖ We expect in return that ever employee performs his tasks in a safe and responsible manner and the organization will do its utmost best to provide the necessary means for protection. Employees, stake holders, neighbors and those who work with us are encouraged to participate and discuss concerns in a transparent way and to take part in the continuous improvement programs through the available communication methods.

This policy can and will be further supplemented by individual policy documents on the subjects of Safety, Environmental, Health & Safety if this is relevant in relation to additional standards or system requirements

Saudi Friends Engineering and Construction (SFEC)

To Whom It May Concern:

Please be advised that Saudi Friends Engineering and Construction [SFEC] have successfully completed majority (Work is still continuing in BGP) of the following scope of work for Saudi Aramco on the Sulfur Ractor Loading Facilities Project at WGP and BGP as a Subcontractor under the main LSTK Contractor POSCO E&C:

Building Foundations

Scope includes civil raft foundations of the combined Substation/CCR/PIB Building, Security Support Building foundation, Security Gatehouse foundation and Loading Shelter foundation.

Piping Supports and Bridges

Scope includes all civil work for pipe sleepers, and foundations of pipe supports and pipe bridges.

Excavations and Backfilling

Scope includes excavating for underground piping, electrical and instrumentation trenches, and backfilling/compaction after installations are done by other subcontractors.

Should you have any clarification please contact the undersigned at 0505816020.

Nasser M. Dowayan, Project Engineer
Northern Area Gas Projects Division
